

Supplies Request for Endo unit (most urgent in red)

General Supplies:

1. Biopsy forceps with needle, adult and pediatric (for 1.8 mm channel)
2. Pediatric bite blocks
3. Heater probes
4. Variceal banding kits
5. Resolution clips
6. Through the scope esophageal/pyloric/colonic balloons 6/7/8, 8/9/10, 10/11/12, 12/13.5/15- These can be wire-guided or not.
7. Balloons that pass through a pediatric scope. (I am not aware that these are available, but if so, then we would be interested. Otherwise, we will use a wire guided esophageal/pyloric balloon alongside a peds scope.)
8. Roth retrieval nets or Spider retrieval nets
9. Sclerotherapy/injection needle catheters
10. SPOT tattoo injectant (expiration date later than 9 months from now)
11. PEG kits
12. Expandable esophageal stents
13. 2 cm snares

ERCP Supplies

1. 0.35 sphincterotomes, long and short wire
2. 0.35 Guidewire (long 450cm) prefer "zebra" like stripes
3. 0.35 Guidewire (short 250cm) prefer "zebra" like stripes
4. 0.35 Long wire (720cm) to use for combined cholangiogram-ERCP procedures
5. 0.25 sphincterotomes
6. 0.25 Long wire (450cm) prefer "zebra" like stripes
7. 0.25 short wire (250cm) prefer "zebra" like stripes
8. Biliary extraction balloons (9mm-18mm range)
9. Biliary dilating balloons
10. Cytology brushes (long or short - ONLY over wire)
11. Expandable biliary stent sets
12. wire holding devices (for use by the rubber cap, with short wire systems)

Larger Items

1. Argon Plasma Coagulator unit
2. TJF 160 or 180
3. Two GIF-160 or GIF-180 gastroscopes
4. One GIF XP160 or GIF N180 pediatric gastroscope
5. One GIF-2TH180 or GIF-2T160 therapeutic scope
6. Olympus irrigation pumps
